## Statement on "China RoHS 2 (ACPEIP)"

Dear Madam or Sir,

The law "China-RoHS (ACPEIP)" dated 28.02.2006 is intended to restrict prohibited substances (lead, mercury, cadmium, chromium (VI), PBB, PBDE with the same limits as in the European directive EU-RoHS) for products that are placed on the Chinese market.

As a first step, the "China RoHS" only required labelling requirements from 01.03.2007. According to the state of our knowledge, the equipment was only subject to the labelling regulation if it was intended for sale to end consumers.

As our devices are exclusively control devices, which are not intended for end users, they were not subject to any labelling obligation at this first step.

From January 2016, the China RoHS2-directive also includes industrial monitoring & control instruments. As our products meet the applicable requirements, they are marked with the Environmental Friendly Use Period (EFUP).

Some substances exceed the admissible limiting values. Details can be found in Annex 1.

Substances, which are prohibited, by EU-RoHS and included in our devices have been replaced by EU-RoHS-compliant alternatives. The transition phase is completed and all of our devices are available in EU-RoHS-compliant versions.

Since 2007 we are working according to a certified integrated management system according to ISO 9001 and ISO 14001.

For further questions, please do not hesitate to contact us at [sustainability@euchner.de](mailto:sustainability@euchner.de).

Kind regards,

EUCHNER GmbH + Co. KG

**Annex 1**

Part Name	Hazardous Substances									
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium (Cr (VI))	Polybrominated biphenyls (PBB)	Polybrominated diphenyl ethers (PBDE)	bis(2-ethylhexyl)phthalate (DEHP)	butyl benzyl phthalate (BBP)	dibutyl phthalate (DBP)	diisobutyl phthalate (DIBP)
Housing (aluminium and brass)	X	O	O	O	O	O	O	O	O	O
Electronics	X	O	O	O	O	O	O	O	O	O

This table is prepared in accordance with the provisions of SJ/T 11364.  
 O: Indicates that said hazardous substance contained in all of the homogeneous materials for this part is below the limit requirement of GB/T 26572.  
 X: Indicates that said hazardous substance contained in at least one of the homogeneous materials used for this part is above the limit requirement of GB/T 26572.
